

# The 9<sup>th</sup> IAESREC Science Café

## Special *3<sup>rd</sup> Anniversary!* Event

This year is the IAESREC Science Café Three-year anniversary. We are holding a special event to celebrate the three-year anniversary of IAESREC Science Cafe. This time we invited two young scientists from China to present the latest researches about energy and materials. If you are interested in the topic and talk about science, please come and join our IAESREC Science Cafe!

### Invited Speaker

## Dr. Li Liangjun

Associate professor,  
Institute of New Energy, China University of Petroleum (East China)

Hydrogen technology and  
its green future

### Invited Speaker

## Dr. Xushen Han

Postdoc,  
School of Resources and Environmental Engineering,  
East China University of Science and Technology

Biomass & Sugar Platform Biorefinery

Date and Time:

**July 29th (Thu.) 2021 17:00-18:00**

Venue: **Online (Zoom)**    Language: **English**

Contact: IAESREC staffs (Chen Qu: [qu.chen.6e@kyoto-u.ac.jp](mailto:qu.chen.6e@kyoto-u.ac.jp))

## What's IAESREC Science Café?

The International Advanced Energy Science Research and Education Center (IAESREC) has started holding Science Cafes (IAESREC Science Cafe) since 2019. IAESREC Science Café provides opportunities of students from our graduate school to discuss about science freely. We have already invited speakers in various research fields to provide scientific

topics since it started. In particular, we have held ONLINE Science Café using Zoom since last year due to the COVID-19 pandemic, which enables us to invite researches from abroad with livestreaming. In addition, we also had online welcome event to provide an opportunity to interact with new international students of GSES under this kind of circumstance.
