

The 3rd (June 20th 2019) IAESREC Science Cafe

The International Advanced Energy Science Research and Education Center (IAESREC) has started holding Science Cafes (IAESREC Science Cafe) from this semester. In this Science Cafe, we would like to make opportunities to discuss about science freely with coffee, snacks and fun. Each time, we will invite a speaker to provide a topic. The speakers will explain their topics in a simple way for us, including people from different research backgrounds. If you want to know about new research fields, or if you want to ask and discuss other scientific questions, please come and join our IAESREC Science Cafe!

The topic of the 3rd IAESREC Science Cafe is “Defining the State of the Sea: Problems for Governance and Regulation”. Please freely come and join us!

[Speaker]

Department of Geography, Durham University
Prof. Philip Stainberg

[Title]

Defining the State of the Sea: Problems for Governance and Regulation

[Style]

Participation-type panel discussion
(After speaker explains about the topic (about 10min), 4 panelists (Prof.s from similar research field) will give their opinion. After that participant (students and Prof.s from GSES) will join to the discussion.)

[Time]

20th June (Thu) 17:30-18:30

[Venue]

IAESREC Seminar Room (Room 302),
Faculties of Engineering Integrated Research Bldg., Yoshida Campus

[Fee] (We will prepare refreshments and drinks)

Student: Free Faculty: Free (Donations are welcome & appreciated!)

[Language]

English
