

The 13th IAESREC Science Café

Energy Science

Raman scattering

Fairness in
Energy Transition

Speaker 1:

Rei Akasegawa (D3, Sagawa Lab.)

"Selective excitation of single lattice vibration mode using mid-infrared free electron laser"

Speaker 2:

Muhammad Hasan Imaduddin (D3, Okumura Lab.)

"The Importance of Carbon Fairness in Energy Transition"

Date and Time:

Sept. 7th (Thu.) 2023

16:00-17:00

Venue:

IAESREC Seminar Room (Room 302),
Faculties of Engineering Integrated Research Bldg.,
Yoshida Campus

Language: **English**

Contact: IAESREC members (okazaki.yutaka.8c@kyoto-u.ac.jp)

Let's
join us!

Upcoming events

< The 14th IAESREC Science Cafe >

Date: Sept 14 or 15th *Scheduling

Speaker: Dr Takuma Watari (senior)

< The 15th IAESREC Science Cafe >

Date: October 2nd (Mon)

Speaker 1: Shaoning Zhang (D1, Hagiwara Lab.)

Speaker 2: Yanlin Wang (D1, Matsuda Lab.)

< The 16th IAESREC Science Cafe >

Date: October 31st

Speaker 1: Yushiro Yamashita (D2, Nakamura Lab.)

Speaker 2: Pengcheng Qiu (D2, Sakaguchi Lab.)

Speaker 3: Yubei Xiang (D2, Matsuda Lab)

What is IAESREC Science Café?

The International Advanced Energy Science Research and Education Center (IAES REC) has been organizing Science Cafes since 2019. The IAESREC Science Café provides opportunities for students from our graduate school to engage in open discussions about science. Since its inception, we have invited speakers from various research fields to present scientific topics.

Notably, in response to the COVID-19 pandemic, we have conducted ONLINE Science Café using Zoom since last year, allowing us to host researchers from abroad through livestreaming. Additionally, we have organized online welcome events to facilitate interactions with new international students at GSES under these unique circumstances.
